

# Help us learn about autism

We are researchers from the University of New South Wales.  
We want to learn about how adults find out if they have autism.

We are looking for people with intellectual disability and autism to:

- Do an online survey

- Talk to us in an interview

For the **survey**, you will need to:

- be 18 years or older
- have autism or think you might have autism
- living in Australia

If you have trouble reading or using a computer, you will need someone to help you.

You have the chance to win \$100 for doing the survey.

Web link: [tinyurl.com/AdultDiagnosisAA](https://tinyurl.com/AdultDiagnosisAA)

For the **interview**, you will need to have found out you have autism after you turned 18

You can choose to talk to us in-person, on the phone, or on the internet. We will give you \$80 if you talk to us in-person, or \$60 for a phone or internet interview.

Tell us you are interested using the web link or call us:
